The International Association for the Exchange of Students for Technical Experience

An independent non-governmental organisation (NGO), with 85 Members and Co-operating Institutions in operational relations with UNESCO. The IAESTE name and logo are the registered properties of IAESTE, the International Association for the Exchange of Students for Technical Experience.

Founded in 1948 on the initiative of James Newby (1893 – 1978)

Established in 2005 as a registered, non-profit making Association.

IAESTE Association sans but lucratif. Registered in Luxembourg

Dear Friends and Supporters of IAESTE,

Welcome to the IAESTE Annual Review for 2012.

The world changes quickly and even though we are still facing challenges of global economic crisis we can recognize a growing demand for skilled, flexible and open minded professionals. Newly graduated students, who are thinking globally and are prepared and willing to work in multi-cultural teams, are becoming an essential boost for companies, which are looking to benefit from this specific situation. To say the least, partnership with IAESTE is becoming increasingly attractive and beneficial for everyone who is getting ready for the third industrial revolution.

This year we have put a lot of effort to strengthen the global brand of IAESTE, modernize exchange tools and process and streamline our operations. Implementation of the Action Plan will lead to a more professional Association, which is ready to face direct and indirect competition. A completely new and modern website that was launched in the fall already attracts an increased number of visits compared to previous years.

Furthermore, due to challenges of the political crisis in the Middle East and its effects on our program in 2011, a total of 3964 students from 802 Academic Institutions in 95 countries were given the opportunity to train with 3009 Employers in various fields related to their studies. Together with Employers' support we will continue to ensure that graduates with broad cultural and technical backgrounds are available to practice their professions at home and in other countries. This Annual Review includes the names of Academic Institutions, Organizations and Employers who have participated in the exchange during the last year.

Congratulations are in order for the following IAESTE Members for reaching significant Anniversaries in 2012: Serbia, Ireland, Brazil, Tajikistan, Iran and Latvia.

It is worthwhile noting that, since IAESTE was founded 65 years ago, more than one third of a million students have had the opportunity to undertake a traineeship outside of their country. During the last years we have interacted with our alumni and as a result, this year we were able to introduce a new section of the IAESTE Alumni Network, which provides access to exiting job opportunities in some of the world's best companies.

For companies looking to recruit across borders, the IAESTE Alumni Network allows access to our growing network of talented, global-minded young individuals with international experience. It can be seen as a natural progression from providing traineeships through IAESTE to employing our alumni.

On behalf of the IAESTE community I wish to thank you for your continued support.

Goran Radnović
General Secretary

OUR ORGANISATION

THE INTERNATIONAL ASSOCIATION FOR THE EXCHANGE OF STUDENTS FOR TECHNICAL EXPERIENCE (IAESTE A.S.B.L.) IS AN ASSOCIATION OF NATIONAL COMMITTEES REPRESENTING ACADEMIC, INDUSTRIAL AND STUDENT INTERESTS. EACH NATIONAL OFFICE IS RESPONSIBLE FOR THE ADMINISTRATION OF THE EXCHANGE IN ITS OWN COUNTRY

The Association was founded in January 1948 at Imperial College, London, on the initiative of the Imperial College Vacation Work Committee. National Organisations of ten European countries represented at this meeting became Members and Mr. James Newby was elected General Secretary. The geographical coverage was soon to spread to most of Europe and beyond, as new countries were admitted to Membership.

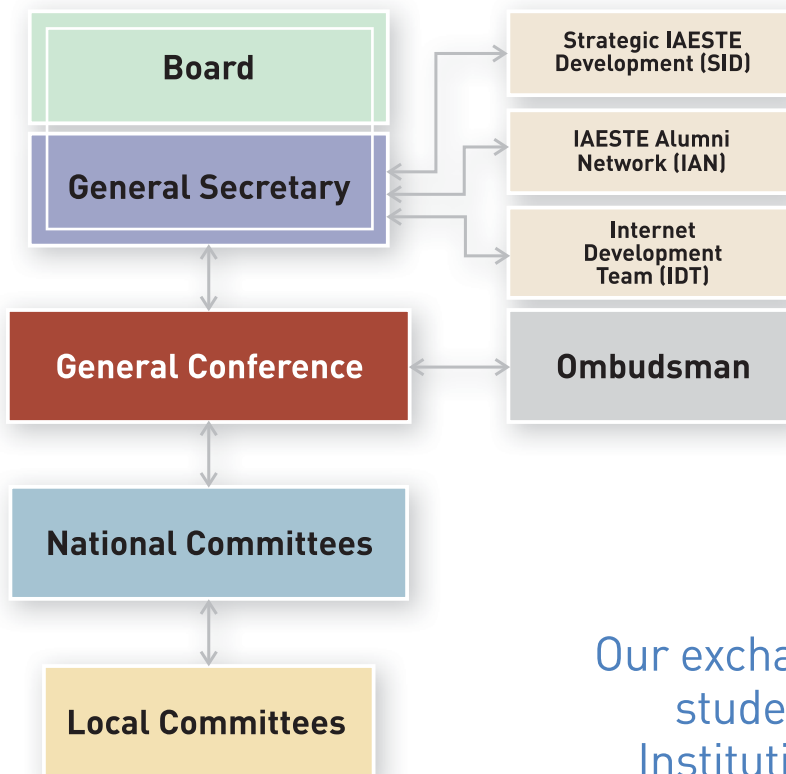

The Association became a registered body according to Luxembourg law at its General Conference 2005 in Cartagena de Indias, Colombia. It is a non-political, independent, non-governmental Organisation, in

consultative partnership with the United Nations Educational, Scientific and Cultural Organisation (UNESCO) and maintains consultative relationships with the UN Economic and Social Council (ECOSOC), the United Nations Industrial Development Organisation (UNIDO) and the International Labour Office (ILO).

IAESTE is also in contact with the United Nations Economic Council for Africa (ECA), the Food and Agriculture Organisation (FAO), the Organisation of American States (OAS) and the European Union (EU), as well as with other educational non-governmental Organisations.

National Secretariats and Committees make up the Membership of the Association. Each year the Annual Conference brings together the representatives of these bodies to decide issues of general policy and with the IAESTE Co-operating Institutions to carry out the exchange of offers for training. Prior to the conference, each Member and Co-operating Institution collects offers from Employers willing to receive students from abroad for a temporary training and work experience period relevant to the students' areas of study, as a complement to their University or College education. The offering Companies or Institutions are expected to pay students a wage sufficient to cover their cost of living during the actual training period.

The offers of training are exchanged with other Members and Co-

operating Institutions mainly on a reciprocal basis. Through their affiliated universities and colleges, Members and Co-operating Institutions select qualified students to meet Employers' requirements as outlined on the training offer. Details of the selected candidates are sent to the Companies for approval.

Participation in the IAESTE exchange is open to bona fide students attending courses at Universities, Institutes of Technology and similar Institutions of Higher Education.

For further information about IAESTE please visit our website www.iaeste.org.

The Mission and aims of IAESTE

MISSION

To operate a high quality practical training exchange programme between Members in order to enhance technical and professional development and to promote international understanding and goodwill amongst students, academic institutions, employers and the wider community.

IAESTE operates irrespective of race, colour, sex or creed.

AIMS

To provide students in Higher Education with technical experience relevant to their studies.

To offer Employers well qualified and motivated trainees.

To be a source of cultural enrichment for trainees and their host communities.

International Organisation

GENERAL CONFERENCE

The General Conference possesses full power to take formal decisions for the fulfilment of the Aims and approves the budget and regulations of the Association. It is composed of one delegate from each Full Member country. It elects the Board and the General Secretary and meets every year in January.

GENERAL SECRETARY

The General Secretary is elected by the Members to co-ordinate the daily administration of the Association and is a Member of the Board.

BOARD

The Board implements the Association's policy and decisions approved by the General Conference, initiates activities supporting the Association's policy in general and provides strategic direction to the Association. The General Secretary is responsible for the day-to-day management of the Association. It is composed of the General Secretary and four elected members.

NATIONAL COMMITTEE

National Committees represent the Member countries and are composed of persons representing Academic, Industrial and Student interests.

Report of the General Secretary

Goran Radnović
General Secretary

THIS REPORT IS A SUMMARY OF THE EXCHANGE ACTIVITIES BETWEEN IAESTE MEMBERS AND CO-OPERATING INSTITUTIONS DURING 2011. THE DETAILS OF THESE EXCHANGES ARE PRESENTED IN THE 2011 IAESTE ACTIVITY REPORT PUBLISHED IN NOVEMBER 2011. THE EXCHANGE TOOK PLACE BETWEEN 88 MEMBERS AND CO-OPERATING INSTITUTIONS FROM 85 COUNTRIES AND 10 NON-MEMBER COUNTRIES

The 2011 IAESTE Activity Report contains the detail on the bilateral exchanges, study fields of trainees sent and received by each Member and Co-operating Institution, the number of participating Employers and Institutions, training periods, age, nationality and gender of the trainees and other useful comparative information. It includes detail on the exchange with non-Member countries. The report also contains a summary of the administrative procedures, reports from Members and Co-operating Institutions on activity as well as the names of the staff handling the exchange and the addresses of the National Secretariats. Readers interested in this report may order a copy from the IAESTE National Secretariat in their own country or from the General Secretary.

Exchange Development in 2011

Figure 1 shows the number of trainees sent in 2011 and compares this with previous four years. The total number of trainees exchanged in 2011 was 3964, 400 less than in 2010. However 34% of the Members and Co-operating Institutions

managed to increase the number of traineeships to outgoing students and this was very encouraging especially in the prevailing economic and political climate. Several countries made a significant increase in the number of placements offered to incoming students, notably, Croatia, Panama, Portugal, Spain, Turkey and Vietnam.

Regional Exchange

As shown on figure 2 Europe continues to dominate the exchange. Some 62.6% of all trainees were sent from EU and other European countries and 64.4% of all trainees were received in Europe, an increase from 2010.

The number of traineeships filled by students from non-European countries accounted for 37.4% of the number of students sent, a slight decrease from 2010. However figures show that there was an increase in the number of students sent from South America.

Participating Employers and Educational Institutions

In 2011 there was an increase in the number of Employers who offered traineeships but an decrease in the number of participating Educational Institutions. A total of 3009 Employers received students in 2011. The number of participating Educational Institutions dropped to total of 802.

IAESTE would like to acknowledge the continued support of all Employers and Educational Institutions in 2011.

Multilateral Exchange

The open international exchange is clearly illustrated by the number of Members and Co-operating Institutions that exchange with each other. In 2011 each Member and Co-operating

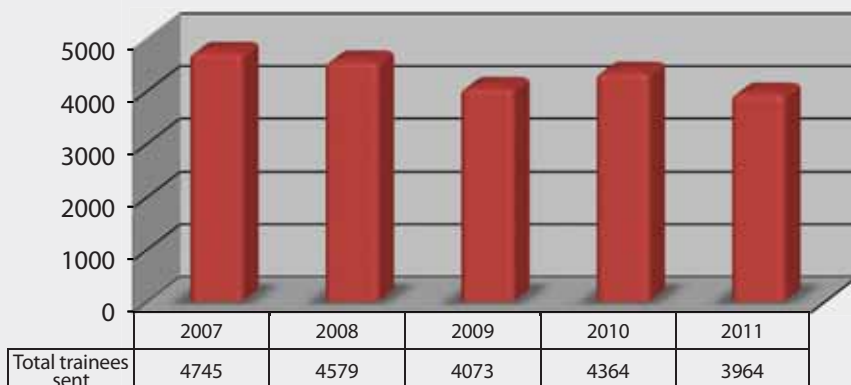

Figure 1. Total Trainees Sent

Institution exchanged on average with 15 other Members and Co-operating Institutions, two less than in 2010.

Figure 3 shows that 58.8% of IAESTE Members and Co-operating Institutions exchanged with 11 or more countries in 2011. 5 Members sent students to 41 or more countries.

Growth of IAESTE

There is great interest in IAESTE throughout the world and on average 3 new institutions per month contact the General Secretary asking for information on how to join the Association. Many contacts are made through our public website www.iaeste.org which has a daily average of 1638 visits. Universities or Organisations committed to the

In 2011 more than 1/3 of the Members and Co-operating Institutions managed to increase the number of traineeships

Reciprocity of the Exchange

The IAESTE exchange programme is based on a bilateral balanced exchange between Members. Most Member countries attempt to maintain a balance between outgoing and incoming students but an exact bilateral balance is rarely possible within any given year. Only long-term balance is sought. This flexibility is needed to support the proper allocation of places and the selection of the appropriate students.

It is traditional within IAESTE for Members with a higher Gross National Income per capita (GNI) to receive more trainees than they send. Strict reciprocity is not implemented with new Members in the early years which allow those in developing countries and those from smaller countries to gather support within their country in order to develop the exchange. Countries with a GNI per capita more than 12,000 USD provided 62.7% of these places in 2011, a increase from 2010.

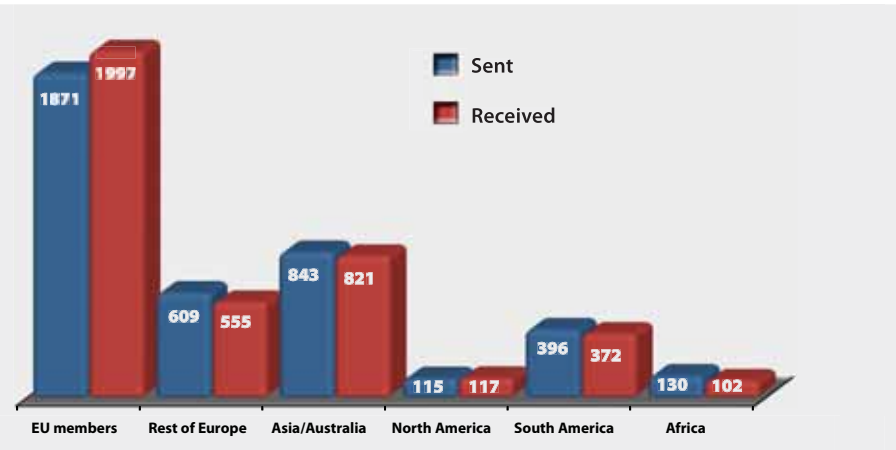

Figure 2. Trainees sent and received by continent

Aims of the Association can apply for Co-operating Institution status and each year the Board reviews their progress at their summer meeting. Co-operating Institutions which are no longer conducting an exchange do not have their status renewed. New Co-operating Institutions take 3-5 years to become established and the benefits of this expansion, reflected in the exchange, becomes clear after this period. They are then able to apply for Associate Membership and after a minimum of another 3 years can apply to be Full Members with voting rights. Since 2011, one new Co-operating Institution have been welcomed into the Association: IAESTE at the Utrecht University. 88 Members and Co-operating Institutions in 85 countries constituted the Membership of IAESTE in January 2012.

In 2011, 36 Members and Co-operating Institutions received more students than they sent abroad and this benefited the rest. In total, 393 work experience places were involved or 9.9% of the total exchange.

Profile of the student trainee

Gender balance and Age: Age and gender balance of trainees varies little from year to year but differs appreciably from country to country.

In 2011, 58,5% male students and 41,5% female students participated in the programme. The gender balance relates to cultural and educational traditions in the IAESTE countries.

The age of trainees in 2011 ranged from 19 to 26 years with the majority (79.8%) being between 21 and 24. The average age is just 22.5 years old.

Study fields: In 2011 66% of trainees were students of Engineering and Technology as shown on figure 4. The remaining 34% were divided between the Sciences, 16%; Architecture and Applied Arts, 9%; Agriculture, 2% and other fields of study, 7%. While

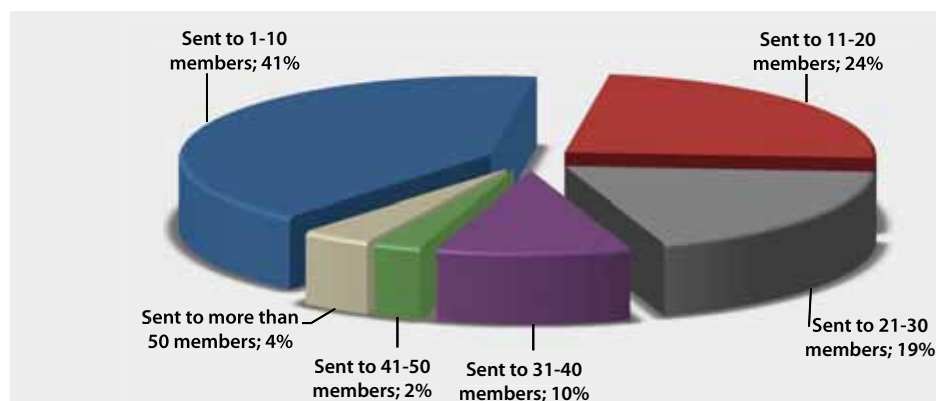

Figure 3. Multilateral Exchange

placements in Agriculture remained stable there was a 2% decrease in Science, Architecture and Applied Arts. Placements in Engineering show an increase of more than 3% in 2011.

In 2011 the largest of the Engineering Faculties was Mechanical Engineering 18%, followed by Computer Science 16%, Civil Engineering 12%, Electrical Engineering 11%, Chemical Engineering 8%, Electronics 4%, Environmental Engineering 4%, Industrial Engineering 3%, Telecommunications 3%, Biotechnology 3%, Food Technology

There was significant increase in the number of Environmental Engineering, Bioengineering and Biotechnology placements

nationalities to the sending country received places on the programme. Of these 12 were from the non-Member countries. Six IAESTE countries exchanged students directly with non-Members countries that included: Cameroon, Indonesia, Liechtenstein,

6-8 week placement with 27.9% on placements lasting between 8-12 weeks.

The number of trainees to benefit from long-term placements represents 19.3% of total placements in 2011, a slight decrease from 2010 can be seen on figure 6.

Most of the training takes place in the period June to September and coincides with the Northern Hemisphere vacation period. In the Southern Hemisphere, opportunities are available between October and April. 43 Members and Co-operating Institutions are now in a position to offer long term training opportunities while 31 offer training throughout the year.

The majority of the work placements are exchanged during the Annual Conference in January on a bilateral basis but thanks to the development of the IAESTE IntraWeb the exchange can continue after this meeting. New and unused Offers can be put on the IntraWeb at any time by Members and Co-operating Institutions and this ensures that IAESTE can accommodate students and employer Offers as they arise.

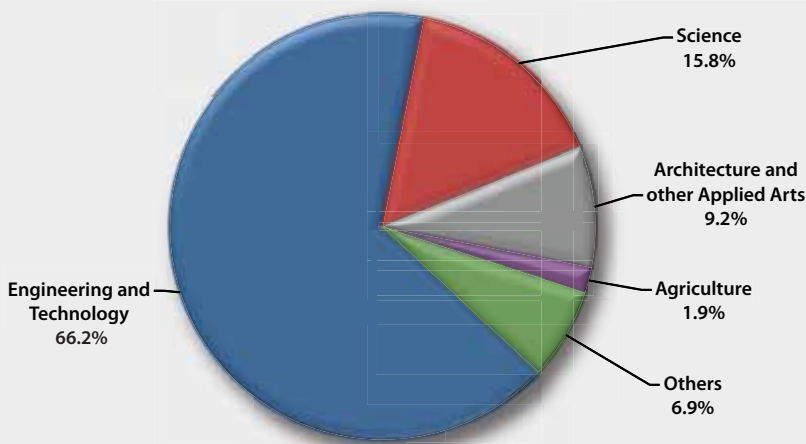

Figure 4. Training Specialities based on Trainees received

3% and Aeronautical Engineering 2%. Indeed there was significant increase in the number of Environmental Engineering, Bioengineering, Biotechnology and Food Technology placements. Automotive Engineering fared much better this year but the majority of traditional Engineering placements decreased. Placements in Veterinary and Environmental Science and Hotel Management saw an increase in numbers in 2011.

Sub-dividing the Engineering groups gives us the breakdown between the major participating disciplines as shown on Figure 7.

Figure 8 shows major science disciplines in 2011.

Nationality: The majority of students participating in the IAESTE exchange are citizens of IAESTE Member countries. Some are from non-Member countries and are studying abroad at Educational Institutions co-operating with IAESTE.

In 2011, 105 students with different

Luxemburg, Morocco, Moldavia, Netherlands, New Zealand, Palestine and Somalia.

Work experience positions on offer in 2011

Figure 5 indicates the training periods for 2011 with 52.8% of trainees on a

Categories of Offers: IAESTE classify placements as Research and Development (D) indicating work of a laboratory nature; Professional (P)

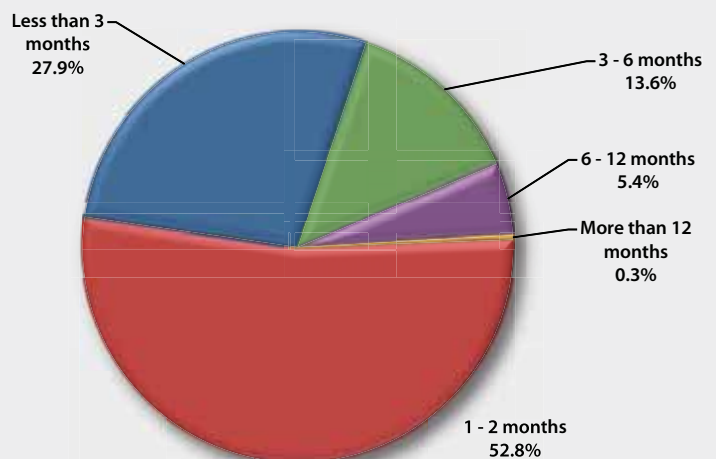

Figure 5. Training Periods

is used for professional activities, practical design work and similar; Working environment Offers (W) indicate work in the industrial area relevant for the student's background and category (X) covers non-specific Offers.

The non-specific (X) Offers can be general office jobs, language Offers and similar. In all cases it is the responsibility of the receiving National office making the (X) category Offers to ensure that the working conditions are acceptable, beneficial to the student and in line with the standards expected of all IAESTE Offers.

In 2011 a total of 5947 training places were reported to be

Returned Offers and cancellations

This continues to be one of our major problems areas. Despite the efforts made to date to minimise losses the number of training places lost or unused remains unacceptably high. Based on the figures reported, the number

Members and Co-operating Institutions managed to maintain their total losses below 20% which shows that there is room for improvement and these countries are to be congratulated.

IAESTE Members and Co-operating Institutions must continue to make every effort to minimise these losses, particularly the Offers that remain unused. Improvements here would result in the release of additional available places. This should encourage all countries to seek improvements to their existing practices and to examine their communication arrangements. Accurate and timely communications should help reduce student and employer withdrawals and accurate matching of the student skills with those required by the employer would further contribute to minimising the withdrawal of Offers by employers.

The year round exchange facilitated by the IAESTE IntraWeb now provides the platform for the quick and accurate exchange of jobs between Members and Co-operating Institutions for new and unused Offers and also nominations for these places. This must contribute to the effective use of all Offers both new and unused, as they become available throughout the year.

of lost and unused training Offers in 2011 amounted to 2507, 39% of the Offers available. Employer withdrawals accounted for 16% and student withdrawals were 8.9%.

In 2011 individual figures show that 19

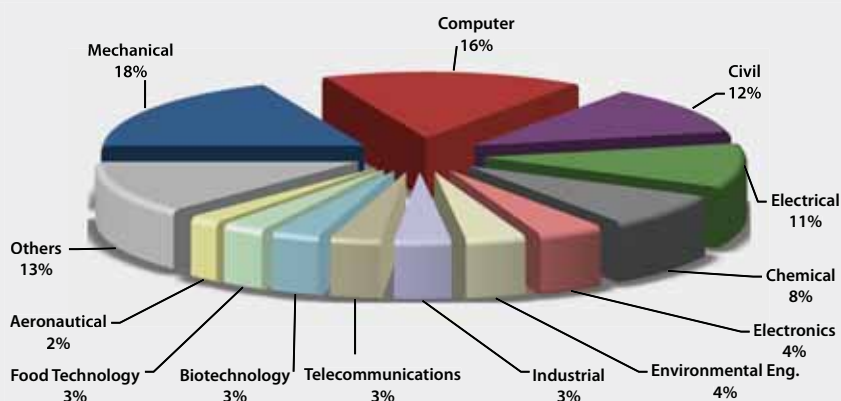

Figure 7. Major Engineering fields

available as follows: Research and Development (D) 3272, 55%, Professional (P) 2257, 38%, Working Environment (W) 331, 5.6% and Non-specific (X) 87, 1.5%. The percentage of Offers used as reported by the Members and Co-operating Institutions by category of the available Offers were (D) 67.7%, (P) 55.5%, (W) 55% and (X) 36.8%.

The bulk of the Offers are in the Research and Development and Professional areas and students favour these training places that are more in line with academic requirements. In many instances such training is a required part of the curriculum. The Working Environment (W) Offers are valued for higher pay and the opportunities they provide to experience working conditions in industry in other countries.

ANNUAL CONFERENCE

REPORT 2012

Skopje
F.Y.R. Macedonia

THE 65TH
IAESTE ANNUAL
CONFERENCE
TOOK PLACE
IN SKOPJE, FYR
MACEDONIA FROM
20-27 JANUARY
2012 WITH 227
PARTICIPANTS
FROM 67
COUNTRIES IN
ATTENDANCE

The Opening Ceremony took place in the Conference Room at Hotel Continental, in Skopje on Saturday, 21 January 2012.

Ms Desanka Ichitrajkova, former National Secretary of IAESTE Macedonia and former IAESTE A.s.b.l. Board Member, acted as Masters of Ceremony. She welcomed guests, thanked the Conference sponsors and supporters and introduced the Presidential Table: Prof Dr. Dimitar Trajanov, Prof Dr. Mile Stankovski, Prof Dr. Mome Spasovski, Mr Mihajlo Brova Zikov, Mr Blagoj Trajkovski and Mr Goran Radnović.

After guests were welcomed Mr Goran Radnović, the General Secretary, presented the IAESTE medal to the Honorary Conference President, Mr Mihajlo Brova Zikov, first National Secretary of IAESTE Macedonia.

In his speech, Mr Zikov expressed his pleasure at being the Honorary Conference President. He emphasised the achievements

of IAESTE Macedonia over the past 20 years and highlighted moments of his own IAESTE experience. He wished everyone an enjoyable stay in Skopje and a successful Conference.

The General Secretary thanked the Conference Organizers, Ms Desanka Ichitrajkova, Mr Blagoj Trajkovski, Mr Filip Hrisafov, Mr Mirko Danevski, Mr Darko Todorovski, Ms Katerina Djordjievaska and Mr Nikica Pandilov and the entire team of volunteers from IAESTE Macedonia. He also reported on the state of the organization in 2011. While economic and political challenges continued to pose challenges for exchange, increased professionalization of the organization have already reaped rewards. The General Secretary thanked and acknowledged the Board for their work throughout the year, along with SID, IDT and Action Plan Task Force advancements. The General Secretary also congratulated following Members for reaching significant Anniversaries: Serbia, Ireland, Brazil,

President of Macedonia Dr Gjorge Ivanov, Honorary Conference President Mr Mihajlo Zikov and the Board of IAESTE

Tajikistan, Iran and Latvia. He also welcomed new Co-operating Institution from the Netherlands.

National Secretary of IAESTE Macedonia, Mr Blagoj Trajkoski, closed the Opening Ceremony by calling the 2012 Annual Conference officially in session.

After the Masters of Ceremony thanked their Sponsors and supporters, the Opening Ceremony concluded with a musical interlude provided by world renowned accordionist Mr Aleksandar Kolovski.

During the five day Conference as well as the usual Plenary and Exchange Sessions, participants were also able to avail themselves of our IntraWeb training, provided by members of the Internet Development Team, a Meet and Greet Session, enabling newcomers to meet some more experienced delegates before the start of the Conference. Mini SID was organised by the SID Co-ordinator, Ms Lucy Everett.

The Plenary Sessions were busy affairs with the key topic implementation of the Action Plan. Also one new Full Member, Latvia, was accepted by the Members bringing the total of Full Members in IAESTE to 57.

A total of 6679 offers of internships were brought to the Exchange Sessions and some Members managed to exchange with over 60 countries in the five days available.

Ms Edith Bretin was elected to be the IAESTE Ombudsman for the period 2012 - 2015. Mr Thomas Faltner was elected as Chairperson of the 66th Annual Conference. Mr Daniel Schwarz was reelected to the position of IDT Co-ordinator for 2012 and Mr Mario Felber was elected to the vacant position of SID Co-ordinator for 2012.

As required under the IAESTE Statutes, Mr Guenter Mueller-Graetschel, IAESTE Germany retired as Members of the Board, having completed his term of office. Mrs Seraina Munton, IAESTE Switzerland was elected for three years and Mr Milan Vručinić, IAESTE Bosnia and Herzegovina was reelected for one year term.

The General Conference acknowledged the excellent job done by Mr Thomas Faltner as Conference Chairperson.

During the Conference IAESTE Macedonia offered delegates warm hospitality and social events. The traditional housewarming party on arrival enabled participants the chance to renew acquaintances and meet newcomers attending the Conference for the first time.

The Welcome Dinner was held at Makedonska Kuća, where guests were served traditional Macedonian cuisine and were able to experience traditional Macedonian music and dancing. Following the professional dance performance, IAESTE Macedonia members joined the stage for traditional dancing. They then welcomed all attendees to join in and learn some folk dances.

Attendees commemorated the 20th anniversary of IAESTE in Macedonia on Tuesday, 24 January at Hotel Alexander Palace. The event, "20 Years of IAESTE Macedonia" was attended by the conference patron, the president of the Republic of Macedonia, Dr. Gjorge Ivanov. President Ivanov addressed attendees and congratulated IAESTE on their anniversary and reiterated the importance of international training opportunities for the nation. Honoured guests included 20 years of supportive IAESTE employers in Macedonia, some of them IAESTE alumni themselves. Honorary awards were given to the following companies for their support to IAESTE: Farmahem; Siskon; Koding, Gorska; and the faculties: Mechanical Faculty Skopje, Faculty of Electrical Engineering and Information Technologies and Faculty of Computer Science and Engineering. Following the formal ceremonies, guests enjoyed classical piano music and a cocktail hour.

Architecture students from IAESTE Macedonia led attendees on a walking tour of the city on Wednesday, 25 January. The students were able to lend their expertise when explaining the diverse historical influences on Skopje architecture and the main points of interest in the capital city.

On Thursday morning, participants were invited to visit IAESTE employer Faculty of Electrical Engineering and Information Technologies.

The Farewell Dinner, which took place on the Thursday evening, took participants to Hotel New Star for a gala dinner and live contemporary music provided by stringed instrument musicians Air Strings. In his speech, General Secretary Mr Goran Radnović, thanked IAESTE Macedonia for its excellent organizational work and hospitality during the Annual Conference and honoured the volunteers present. He also acknowledged the good work done by the outgoing SID Co-ordinator Ms Lucy Everett.

Retiring IAESTE delegates were also honoured in different speeches by delegates, and all SID work group leaders were recognized for their work throughout the year as well. The evening gave participants an opportunity to say farewell informally before the conclusion of the Conference on the Friday morning.

The 66th Annual Conference of IAESTE will be held in Belfast, hosted by IAESTE United Kingdom from 18 - 25 January 2013.

IAESTE SERBIA TURNS SIXTY!

Dr Petar Pravica
President of the NC

Dragan Vukićević
National Secretary

SIXTY YEARS AGO,
IN THE COURSE
OF YUGOSLAV
WESTERNIZATION
IAESTE STARTED
ITS ACTIVITIES. IT
WAS OF GREAT
IMPORTANCE FOR
THE COUNTRY'S
DEVELOPMENT
AS WELL AS
FOR YUGOSLAV
INTERNATIONAL
IMAGE

It must be emphasized that great deals of our thanks have to go to the group of enthusiasts - the students of technical sciences and their professors. The preparatory deeds had been done throughout 1951 and the official founding assembly of the National Committee of IAESTE Yugoslavia was held in 1952 in

Belgrade. Professor Dr. Dragomir Malić (University of Belgrade) was the first elected President, and Andria Dozet, a student of Electrical engineering was elected National Secretary. At the very same year during the course of the General conference in Delft (Holland), Yugoslavia was officially accepted as a member of the IAESTE. The first results

Vukota Mastilović
Electrical Engineer (ret)
World Bank, Washington

My summer practice took place in Finland in 1956 at Suomi Kappelitehdas, Helsinki. After career in Yugoslav energy sector the World Bank recruited me where I worked on many large power projects as a mission leader and principal engineer more than two decades. The experience from the IAESTE training greatly enhanced my professional carrier. I believe that the same happened to many young people who participated in the IAESTE exchange.

were more than encouraging. Some 140 Yugoslav students were sent abroad and 103 foreign students came to Yugoslavia.

The number of exchanged students had soared ever since, but the rate was stabilized in the 1960's at the average of 350 students in both ways. That was a period of very dynamic economic development in Yugoslavia, while new Universities and Faculties were founded, especially those in the field of a natural and technical sciences. At the same time Yugoslavia became a significant partner for many European, and non-European countries. Yugoslavia had the same significance for the countries of the Third World in the educational and technical assistance as the West had had for her in the 1950s.

In appreciation for the great

of the meeting Dr. Klaus Wyneken, had delivered a special acknowledgment to the Yugoslav efforts stated that Yugoslavia had become one of the most reliable and best organized countries participating in the IAESTE student exchange program. At the time, IAESTE was spread and actively acted in all republics. Once had started in Serbia, Croatia and Slovenia, soon was established in Bosnia and Herzegovina, Macedonia and Montenegro as well.

We are glad to point out that IAESTE's activities in Yugoslavia (Serbia) have never ceased in spite of the breakup of the Country in 1991, the wars and the sanctions. When Yugoslavia fell apart in the 1990's, Serbia as successor continued exchange.

The students still have expressed constant interest year by year. There are always more candidates for the exchange than offers for internships abroad so they precede strict candidates' selection.

Andria Dozet, Rolf Kratochwill, Rolf Beijer, Klaus Wyneken

25th IAESTE General Conference, Dubrovnik, Yugoslavia

In short, Yugoslavia and later Serbia, contributed greatly to the development of IAESTE as a whole.

In addition to other accolades, one of the most significant recognition for our achievements and merits was perhaps election of Mr Goran Radnović as General Secretary of IAESTE.

The Belgrade office of IAESTE provide exceptionally good conditions for conducting activities regarding the coordination and management of the international organization, in addition to being well-connected with the relevant domestic and the

international organizations and forums.

Many generations of students, have dedicated their efforts and abilities into IAESTE and contributed to our importance as an international organization and our presence in the global development of education. Commendations go for all of those in Belgrade and the many cities of the former Yugoslavia, who contributed to development of IAESTE.

Nikola Cerović
Mechanical Engineer
Ball Packaging Europe
Serbia

Three different multinational companies showed the same amount of interest regarding time I spent on my traineeship. IAESTE turned me immediately from a student to a strong candidate competitive with more experienced Mechanical Engineers. After choosing one of three offers speaking to my boss, he made an interesting comment: "Your international experience was something which distinguished you from hundreds of candidates with similar academic background."

achievements that had been obtained by the Yugoslav IAESTE Committee, the International Association entrusted the organization of two General Conferences to Yugoslavia, the first one held in Belgrade (1960) and the second one in Dubrovnik (1976). In the course of Dubrovnik Conference, former-General Secretary of IAESTE and the chair

Ivanka Popović
Vice-Rector for Science
University of Belgrade

In the summer of 1980, I worked as a intern in the Department of Organic Chemistry at the University of Konstanz in Germany. I had the opportunity to gain valuable practical experience in a research laboratory. Upon completing the internship, I had a much clearer idea of my career options. I believe that my training through IAESTE enriched both my personal and professional life.

REELING IN THE YEARS

50 years of IAESTE Ireland

Nick Leonard
Former National Secretary

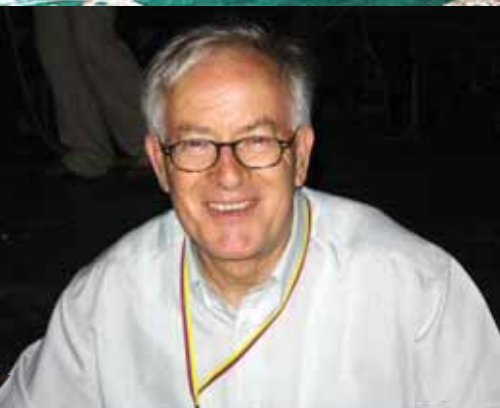

NICHOLAS LEONARD'S PERSONAL REFLECTIONS ON SOME OF THE PEOPLE AND EVENTS FROM THOSE YEARS ...

This year we celebrate the 50th anniversary of IAESTE Ireland. Fifty years since Peter O'Neill of University College Dublin's Mechanical Engineering Department introduced IAESTE to Ireland. It is a celebration of the thousands of young people who benefited from the unique IAESTE experience. Most have faded from my memory, into the mists of time, but some remain.

Recently, in a restaurant in Northern Ireland, the waitress at our table turned out to be an architectural student of Queens University Belfast,

“IAESTE Ireland celebrated their 50th Anniversary at the Presidents Residence on 18 September. It was a fantastic event with representatives past and present from within IAESTE, trainees, employers and universities. The recently returned trainees have ignited a new enthusiasm for the programme in Ireland and with the co-operation of companies and universities we hope to have a very active programme into the future”.

just returned from a traineeship in Brazil. I had to interrupt my dinner, and she her work, such was her enthusiasm to recount her exciting Brazilian IAESTE experiences! When I drive along the quays in Cork and look at the new apartment blocks, I am reminded of Heraldo, an architectural graduate from Brazil who came here as a trainee in the '80s and never left. He rode the Celtic Tiger and continues to leave his unique mark on the landscape of Ireland's second city. I think too of Frank who came from Bangkok to a two-month traineeship in Dublin and who, years later, is still contributing to Ireland's booming software industry. Tongdee's loss has been our gain! My own son, John, traveled to Poland at the height of the Solidarity campaign, learning little about Civil Engineering, a lot about life.

When Heraldo arrived I was the new National Secretary, succeeding Jim Reid and operating the IAESTE programme from the Careers Service of University College Cork. During that time we hosted the Annual Conference

and I particularly remember the visit to Coolmore stud in County Tipperary. This was prompted by the Egyptian National Secretary, the wonderful, larger than life Ezzat El-Mehairy who embraced people of all nationalities, without exception, in the IAESTE family - and who loved horses!

When I retired from UCC I sought a more permanent base for IAESTE Ireland and Leargas, with the backing of the Department of Education, was the obvious choice. This move reflected what had already happened in Northern Ireland, with our IAESTE friends and colleagues running a very successful programme, based within the British Council - and doing it during difficult times in Northern Ireland, under the inspired guidance of Pauline Ferguson,

Jim Reid and Pauline Ferguson - names to conjure with! Jim was Ireland's second National Secretary. Both Pauline and Jim went on to become General Secretaries of IAESTE International.

With IAESTE safely within Léargas, I was eligible to seek the

newly established post of IAESTE Ombudsman. Another three years with IAESTE, with visits to Bangkok, Vienna and Cartagena. What a bonus! The Colombian post-conference tour into the Andes, including a visit to beautiful and historic Villa de Leyva, will remain forever in my memory. There were just four of us, the late Lucien Seywert from Luxembourg, his wife Adrienne and Uros Kovsca from Slovenia and we had the luxury of a car, a driver and one of Bernardo Baeyen's students, Leonidas, as translator and guide. Thank you Bernardo for your wonderful generosity and hospitality.

I am optimistic about the future. Ireland's present economic difficulties, along with a proliferation of national and college based work experience programmes, put pressure on IAESTE. Yet Ireland has a number of buoyant industries, particularly software, pharmaceuticals, agriculture and food, which will form the basis for renewal.

Most of all, I believe that the unique IAESTE experience is worth fighting for.

IAESTE BRAZIL 30th ANNIVERSARY

Celso Luiz Garcia
President of ABIPE

MESSAGE
FROM CELSO
LUIZ GARCIA,
PRESIDENT
OF ABIPE,
NON PROFIT
INSTITUTION
THAT MANAGES
THE IAESTE
PROGRAM IN
BRAZIL

We are very proud of managing the IAESTE Program in Brazil for 30 years and I would like to take this opportunity to express our staff gratitude to all those who have been part of our story: IAESTE member countries with whom we have exchanged along the years, students, companies and academic institutions. One special thank you for our local partners - representatives of recognized universities and companies who open their doors every year to receive hundreds of IAESTE foreign students and make real their dream of working abroad for a while providing an extraordinary and unforgettable experience for all these people. Some of you who are reading this text

have been with me along this path for many many years and are still helping us to build the story of international exchange in my home country. Thank you for your commitment and good will!

I would like to share with you who are part of the new generation... a little bit of the story of the IAESTE program in Brazil. Just to encourage you to bet on your dreams!

Thirty years ago, when I was a young man studying at the Federal University in Porto Alegre, a city placed in the south region of the country, I started the IAESTE activities in Brazil. But I have to say that before that, Prof. Ernest Geiger from FEI, had launched the program among a few students from the Engineering field.

Since that time I've been involved with the IAESTE Program, working and

During these 30 years IAESTE Brazil has sent more than 6.000 students abroad and had received a similar number of foreign students in Brazilian universities and companies

supporting the IAESTE activities in the country, in order to promote the exchange of students around the world.

The reason why for that is because I believe deeply that education is the most valuable inheritance we can leave towards a better future for our children and our grandchildren. An experience far away from our home countries is part of this important background that a human being can build. IAESTE is making this dream true for thousands of students for more than 65 years.

During these 30 years IAESTE Brazil has sent more than 6.000 students abroad and had received a similar number of foreign students in Brazilian universities and companies.

Every year we exchange opportunities with more than 40 countries. Our goal is to increase the diversity of international students who are willing to come to Brazil as we strongly believe that this diversity is essential for the

improvement of our culture and our businesses in the country.

A lot was done in these 30 years... but I do believe that there is a huge potential for IAESTE... and the best is still to come!

Руси IAESTE муборак!
Поздравляем с днем IAESTE!
Congratulation with IAESTE Day!

Dr Pulat Pulatov
National Secretary

A TWO DECADES OF IAESTE TAJIKISTAN

Tajikistan is a small country located in Central Asia with a long history. It was part of ancient Persia and the Aryan state. The first independent Tajik state of the Samanids was founded in the 9th century with its capital in Bukhara, and from 11th century its territory became part of the Emirate of Bukhara. After the establishment of the Soviet Union, in 1924 Tajikistan became a member of the USSR. In 1991 Tajikistan gained its independence from ex USSR. Tajikistan is a mountainous country with more than 93% of the territory covered by mountains.

The official language of the country is Persian (Tajik). Russian language is also widely used in the country. Dushanbe is the capital of Tajikistan with a population of around 1 million people. The main cities of Tajikistan - Khujand, Kulyab, Istaravshan and Penjikent have a long history of over 2,500 years. Tajikistan is a secular state, but most of its population are Muslim. Also part of the population professes Christianity, Judaism and Zoroastrianism. Now Tajikistan borders with Kyrgyz Republic on the north, China on the east, Uzbekistan on the west and Afghanistan in the south. IAESTE is very popular and well known among students in Tajikistan. IAESTE Tajikistan is registered in the Ministry of Justice as an NGO, and it is a non-profit making organization. After the collapse of the Soviet Union in 1991, I was the Rector of the Technological University of Tajikistan, we applied to become a Co-operating Institution

of the IAESTE. IAESTE Tajikistan's National Committee was established in 1992. In 1993, IAESTE Tajikistan became an associate member, and in 1996 full member of IAESTE. That time the IAESTE had 33 member countries. Over the years IAESTE has globally increased by 3 times, and currently about 90 countries are represented in IAESTE. Tajikistan was the second country from CIS after Russia to join IAESTE. Over the years, IAESTE has changed, from a mostly European organization to become a truly international organization. The nature of the proposed work has also changed. It became more oriented towards professional development and research, rather than manual jobs offers.

There was a period of civil war in Tajikistan, from 1992 to 1997 which mainly involved the central and southern regions of the country. Despite all the risks and troubles at that period, IAESTE was operating and we used to take students to the north of the country, creating good conditions for them. Despite the difficulties of the transition period during these past years

we accept more than 330 foreign students and sent 450 students for internship in 40 countries around the world and almost all of the students who have passed internships under the IAESTE's program, found their place in this highly competitive world. They are now working for the UN, World Bank, EU, many other international organizations, embassies, as well as in various ministries, local government in Tajikistan, and they always speak fondly of the role IAESTE played in their lives. IAESTE Tajikistan is the only organization that provides opportunities to students of technical universities in the country and really helps future engineers in their professional growth.

IAESTE is a great opportunity for young people to be successful in the future.

Engineers, researchers and scientists – We want you!

Located in the heart of Asia, Singapore is brimming with opportunities in key growth industries like biomedical sciences, chemicals, clean technology, engineering and research. We welcome talent with specialised skill sets and knowledge who want to build their careers in a stimulating environment.

Contact Singapore

Contact Singapore engages overseas Singaporeans and global talent to work, invest and live in Singapore. We actively link Singapore-based employers with professionals to support the growth of our key industries. We also work with investors to realise their business and investment interests in Singapore.

To start your search for career opportunities in Singapore, visit the Contact Singapore Job Portal: www.contactsingapore.sg/jobs

For more information on working and living in Singapore, visit: www.contactsingapore.sg

Or you can also contact our officer in Frankfurt: david_ho@contactsingapore.sg

Corporate partnership with IAESTE

The biggest science and engineering student exchange programme in the world

Access new talent & professionals

Enhance your global reputation

Grow your network and interact with IAESTE members

Targeted promotion to **engineers & scientists**

Worldwide visibility of your brand to **86 countries**

More than **340,000** former trainees all over the world

Almost **4500** new IAESTE trainees every year

Mario Felber
SID Co-ordinator

SID 2012 - TIME TO TACKLE TODAY'S CHALLENGES

THE 27TH MEETING OF SID (STRATEGIC IAESTE DEVELOPMENT) TOOK PLACE FROM 3RD TO 6TH OF MAY IN THE RETZHOF CASTLE JUST OUTSIDE OF LEIBNITZ IN SOUTHERN AUSTRIA. A TOTAL OF 62 PARTICIPANTS FROM MORE THAN 25 COUNTRIES PARTICIPATED IN THIS INTENSIVE MEETING

More than 500 years ago the first parts of the small castle were built. During the last years it was renovated and changed to a modern seminar hotel where you can still feel the centuries of history it experienced.

In this motivating atmosphere we started with the opening ceremony on Thursday night with the IAESTE Austria alumnus Dr. Fortin, who found his own company CNSystems after his graduation. After his motivating speech about the importance of improvement and development, the participants gathered for a small house-warming party in the courtyard.

On Friday morning the meeting started with trainings by three excellent trainers in "Teamwork vs. Distance & Knowledge Transfer", "Communication & Presentation skills" and "Project Management". Those trainings were

welcomed by the participants who were able to extend their skills for the upcoming work in the Working Groups.

In the afternoon, work in the Working Groups started. The participants choose one out of five groups which were:
WG1: Improvement of Administration;
WG2: Improvement of Exchange;
WG3: Marketing & Fundraising;
WG4: Internal Policies;
WG5: Alumni; each led by experienced WG co-ordinators. I would like to use the opportunity to again thank the co-ordinators Mikkell Foltmar (due to absence represented by Lucy Everett and Michael Debono), Krister Haugen, Milan Vrucinic & Eleftheria Karydi, Laszlo Papp and Bruce Mehlman-Wicks.

In 17 Project Groups, more than 45 recommendations for the development of our association were

created and put forward to the Board of IAESTE A.s.b.l.. Besides that, the participants shared best-practice amongst each other, swapped stories about their work in IAESTE in their respective countries and developed new ideas that are still worked on after the meeting.

Important development was done for many topics, here are some highlights: our internal knowledge database - the IntraWiki - will be ready to use soon; our website got a new structure and will go online

support IAESTE in big countries were discussed; the IAN will receive more interesting articles soon; and many more.

On Friday night we enjoyed a typical Austrian dinner in the centre of Leibnitz. First we cheered to each other with a very nice frizzante made from Isabella grapes, typical for Southern Austria and only grown there. During this aperitif we received an inspiring speech by another IAESTE Austria alumnus, Mr. Hess from Microsoft, about

a big tree and the special lighting gave the evening an unforgettable atmosphere. We were also happy to celebrate two birthdays on Saturday evening (Board Member Dr. László Becker) and on Sunday right after midnight (Alumni Relations Manager Mr. Bruce Mehlman-Wicks).

A big THANK YOU to our hosts, IAESTE Austria, and especially all the volunteers that helped to make this event unforgettable: Patryk, Lena, David, Hans, Ágata, Gerhard, Erik, Bachi, Conny, Alex, Hadi, Beni, Kathi

in summer 2012; the exchange will be extended by a new scheme - the Continuous Online-Based Exchange (COBE); lots of ideas how to market our association were created, including guidelines how to use our existing and upcoming marketing materials correctly; ideas how to

different working environments and the importance of flexibility and adaptability. After that, during dinner, Dr. Schlögl from the Austrian Institute of Science and Technology, gave a speech about innovation in the information society. Well fed and watered we recharged our batteries for the next working day.

On Saturday we continued working in the respective WGs. After lunch we shared our ideas and recommendations with everybody during a poster session. Later in the afternoon we visited the Frauenberg, a small hill overlooking Leibnitz. On the top of the hill there is a pilgrimage church, but also the remains of an ancient Greek temple dedicated to Isis-Noreia.

In the evening the International Evening took place in the courtyard of the castle. The nice spring weather, the tables for every country arranged in a circle around

and of course Stefan and Teresa, who are supporting me throughout the whole year.

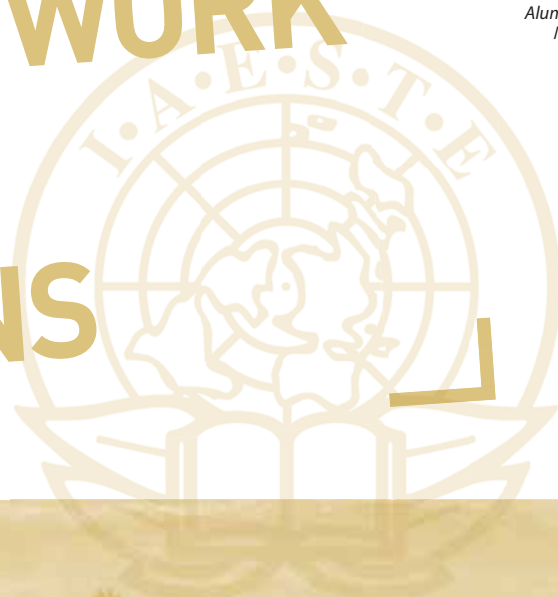

And last but not least I would like to thank everybody who attended and worked so hard to make the SID-meeting 2012 such a productive event. I look forward to an effective collaboration throughout the year so that we can ensure that a lot of work has been done until the upcoming Annual Conference in Belfast and will have a successful SID 2013, including our meeting in Portugal.

To make it possible for IAESTE to live through the changes that are happening in the global economy and society and come out bigger and better, we have to work together, focus all our energies on the same goals and improve our great association to yet unknown dimension. Come work with us for a better future!

Bruce Mehlmann-Wicks
Alumni Relations Manager

ALUMNI NETWORK - NEWS AND IMPRESSIONS

MORE THAN 6000 PEOPLE HAVE NOW JOINED AND ARE ENJOYING THE BENEFITS OF A PRIVATE IAESTE ALUMNI NETWORK

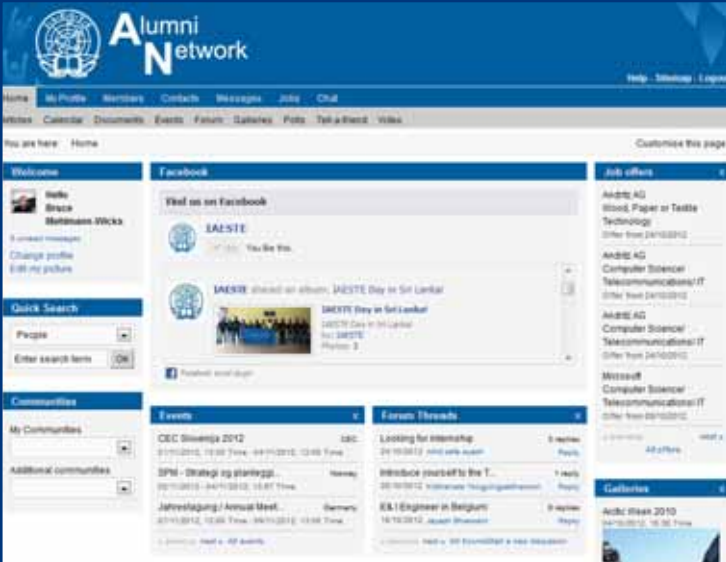

The last 12 months have been a particularly exciting time for the IAESTE Alumni Network (IAN). The IAN launched in January 2011 and in the last year has doubled its membership. More than 6000 people have now joined and are enjoying the benefits of a private network for IAESTE Alumni. Not only are our members finding their old friends on the network, they are also getting exclusive access to information and events around the IAESTE world.

During the last year we have been listening to feedback and the number one priority for our

The next Alumni Conference will take place in Belfast in January 2013

from 12 different countries, who had been trainees in 5 different decades! A fun and interesting programme was enjoyed by all.

The most popular part of the programme was when the Alumni Conference joined with the Annual Conference for the world famous International Evening! Food and drink from around 80 countries was shared and many costumes and national dresses were seen on the dance floor. The next Alumni Conference will take place in Belfast in January 2013 and details will be available on the Alumni Network.

With such momentum behind us, the IAESTE Alumni Network is an increasingly attractive option for sponsors or potential partners that wish to promote their work to our members. We are also always looking for ways to improve our offer to our alumni, so please do get in touch if you think we may be able to work together for mutual benefit.

members was access to job information. We were therefore very pleased that in September 2012, we were able to introduce a new 'jobs' module to the IAN. The module provides our alumni with access to exiting job opportunities in some of the world's best companies. So now, not only can IAESTE help you gain valuable work experience, it may also help you find the right job!

For companies, the IAESTE Alumni Network, and especially the new job module, allows access to our growing network of talented, experienced, international alumni. It can be seen as a natural progression from providing traineeships through IAESTE to employing former IAESTE trainees. This kind of targeted advertising of vacant positions can help reach the right people for companies with an international perspective.

Something else we're very proud of is our Annual Alumni Conference. In January 2012 we held our first one in Skopje, FYR Macedonia and it ran alongside the first 3 days of the IAESTE Annual Conference. In attendance were 30 people

In 2013 we are confident of reaching a membership of 10,000 and we are looking forward to providing more and better opportunities for IAESTE Alumni, as well as continuing to build lifelong relationships, and perhaps most importantly, friendships.

CONNECT 2012 DESTINATION BELFAST

The 2012 IAESTE CONNECT Conference took place in Belfast from 18th to the 22nd of April. Originally formed in 2011 by our friends in Scotland, the purpose of CONNECT is to focus on networking and training for Local Committees in Western & Northern Europe and Scandinavia - countries which lie outside the catchment of CEC. We are pleased to say it was a hugely successful event; strengthening the work of Local Committees; whilst at the same time showcasing the destination for the 2013 IAESTE Annual Conference.

Attendees from across Europe and beyond were able to meet, exchange experiences and learn from each other over the course of 5 activity-laden days. There were representatives from a number of countries including Germany, Spain, Belgium, Turkey, Slovenia and Jordan. In total 22 different Local Committees were represented. The event served to reinforce the important role that Local Committees have to play by coming together, sharing skills, knowledge and experience and working collaboratively to strengthen IAESTE's position in their home countries.

One of the primary aims of CONNECT was to offer training for LC members by enabling participants to reflect on their practices and to find common or better ways of working. There were a variety of workshops offered, covering areas such as innovative technologies and website design to new member training and finance. The variety was intentionally

broad to ensure that all individual requirements were catered for.

Rebecca Lutton, former President of IAESTE NI commented "IAESTE CONNECT was singularly one of the best experiences this year; never have I had so much fun in so little time with so many people. I learnt and developed many new strategies: effective and efficient time-management, organising and managing large groups of people and resourcefulness in dealing with different issues. Overall it was an excellent event which was very well organised and received. It didn't just achieve its main aim of 'connecting' people it surpassed it."

The other fundamental drivers for CONNECT are networking and promotion. There were specific workshops that helped develop promotional skills; including how to make an IAESTE video and tips around improving visual materials. This was also enhanced with an inspiring speech by Alastair Fee - visiting Professor of Marketing and Innovation at Queen's University Belfast. There were lots of networking events throughout the 5 days whether through social events, football or even by learning the IAESTE dance!

In addition to the professional development offered by IAESTE Connect, there was a cultural element to the programme whereby participants were

provided with opportunities to explore Belfast and the wider area. As a city with a renowned history, this was much to learn about and see. There were tours of the murals that document Belfast's recent and troubled past; as well as the chance to experience the city's newest and exciting asset: Titanic Belfast, a state-of-the-art museum and visitors centre centred around Belfast's most 'famous' creation.

Participants got to experience first-hand the glamour of the Penthouse suite at the Europa Hotel; they dressed up and dined against a backdrop of 360 degree views of Belfast's skyline at sunset whilst enjoying the sounds of a traditional Irish band.

The post conference event provided the chance to explore beyond Belfast; including a trip to Dublin in Southern Ireland and to the Giants Causeway, a UNESCO heritage site on the rugged north coast of Northern Ireland. It gave everyone a taste of what lies in store when Belfast hosts the Annual Conference in 2013.

Former President of the IAESTE UK Local Committee based in Belfast, Jonny Milliken, reflected on the event: "We had a packed programme full of cultural activities, networking sessions and training events, presented by facilitators from across Europe; and all with a laugh and a smile at the same time. We believe everyone came away from the event much

more enthused, dedicated and amazed by fellow IAESTE Committees and the people who work so hard to make the programme happen around the world."

17TH IAESTE TRAINING AND MOTIVATION SEMINAR

28 September – 02 October 2011,
Winterthur, Switzerland

17TH IAESTE TRAINING AND MOTIVATION SEMINAR JUMP 2011 TOOK PLACE IN THE CITY OF WINTERTHUR CLOSE TO ZÜRICH IN SWITZERLAND DURING 5 DAYS 67 PRATICIPANTS FROM 21 COUNTRIES ENJOYED THE UNFORGETTABLE IAESTE SPIRIT

The Participants enjoyed five training Sessions led by experienced IAESTE members from different countries. Trainings where hold on the topics: Introduction to IAESTE, LC Management, Job Raising, Company Marketing and Administration. This year the Administration Workshop got changed into a Planspiel, where all participants experienced the whole IAESTE year with all actions and forms that are needed for the Trainee exchange within one morning. Also the Job Raising Workshop was split into two Workshops, one dealing with general Topics of the Jobraising and the second one training the company contact with the Job Raising simulator.

Additional to the Workshops motivational and team building events

where held to inspire the people to achieve their goals. Besides two motivational sessions with Marcus Orlovsky, who has been an inspiration for JUMP for many years, the social programme has helped to round up the whole Event.

Unfortunately there where no Company Speakers this year, which usually gives a good inside view from companies and their benefits of IAESTE. Nevertheless JUMP has been financially supported from many companies and institutions and even made it to the first CO₂ neutral IAESTE event ever held.

The fabulous outdoor games brought some surprise guest, namely Damaskus and the JUMP couch (the JUMP couch can still be visited at the National Office of IAESTE Switzerland), to the following BBQ and foam party. Also traditional IAESTE Dance classes and of course the International Evening where not missing and the home made food was delicious. In addition, IAESTE General Secretary - Goran Radnovic has visited JUMP. His presence elevated the importance of the event and gave the rare opportunity for IAESTE beginners to listen and speak to the head of the organisation.

The event was hosted by IAESTE Switzerland and coordinated by an outstanding team led by Bernhard Blattmann who brought the Swiss Local Committees together to make JUMP 2011 unforgettable. JUMP 2011 was sponsored by Engagier Dich, Burckhardt Compression, VSETH, ZHAW, EMPA, Novartis, Holcim, Sensirion and the CO₂ compensation was sponsored by Southpole.

JUMP 2011 was the first CO₂ neutral IAESTE Event ever held.

JUMP2012 will be organised by IAESTE Croatia and will take place in Orahovica. It will be the first event coordinated by the new JUMP Co-ordinator Scott Hutchison who will continue the step by step improvement done in the past years by Tomek Pawliszyn.

Don't miss it! For more information and volunteering, visit <http://jump.iaeste.org> or e-mail: jump@iaeste.org. Keep on JUMPing!

Bernhard Blattmann
JUMP Event Co-ordinator

- ▶ Sistema de la Universidad Politécnica
- ▶ Universidad Popular Autónoma del Estado de Puebla
- ▶ Universidad Regiomontana

MONGOLIA

Participating Employers

- ▼ Mongolian University of Science and Technology
 - ▶ Power Engineering School
 - ▶ School of Civil Engineering and Architecture
 - ▶ School of Mathematics
 - ▶ School of Technology in Erdenet
 - ▶ School of Computer Science and Management
 - ▶ School of Geology and Petroleum Engineering
 - ▶ Department of Science, Technology and Innovation
 - ▶ School of Industrial Design and Technology
 - ▶ School of Material Science
 - ▶ School of Mining Engineering
- ▶ E-Open School
- ▶ Mining Company "Erdenet"
- ▶ "NAB" Co Ltd
- ▶ Company "Nomads"

Participating Institutions

- ▶ Mongolian University of Science and Technology
- ▶ National University of Mongolia
- ▶ Agricultural University of Mongolia
- ▶ Health Science University of Mongolia
- ▶ School of Technology in Erdenet

MONTENEGRO

Participating Employers

- ▶ A.D. 13. jul. Plantaže
- ▶ Institut za Biologiju mora
- ▶ Montenegro Promotion Agency
- ▶ University of Montenegro C.I.S.
- ▶ Zetogradnja
- ▶ F.I.D.I.A.

Participating Institutions

- ▶ University of Montenegro
- ▶ University of Donja Gorica
- ▶ University of Mediteran

NIGERIA

UNIVERSITY OF BENIN

Participating Employers

- ▶ Atiode Solar System
- ▶ University of Benin Teaching Hospital
- ▶ Technology Incubation Centre - Benin
- ▶ Benin Owena River Basin Development Authority
- ▶ Faith Medicals
- ▶ Precious Palm Royal
- ▶ PM Bank
- ▶ Union Diagnostic

Participating Institutions

- ▶ University of Benin
- ▶ Federal University of Technology, Owerri
- ▶ Abubakar Tafawa Balewa University, Bauchi

NORWAY

Participating Employers

- ▶ Norwegian University of Life Science UMB
- ▶ Trondheim University College
- ▶ The Norwegian University of Science and Technology NTNU
- ▶ University in Bergen
- ▶ University in Oslo
- ▶ University in Tromsø
- ▶ Aker Well Service
- ▶ Apply Nemo AS

- ▶ Systor Vest
- ▶ Technip Norway AS
- ▶ Teknologisk Institutt
- ▶ Tobii Technology Norway AS
- ▶ Universitetssykehuset i Nord-Norge (UNN)
- ▶ ViaNova Systems AS

Participating Institutions

- ▶ Bergen University College
- ▶ Norwegian University of Life Science UMB
- ▶ Trondheim University College
- ▶ The Norwegian University of Science and Technology NTNU
- ▶ University in Agder
- ▶ University in Bergen
- ▶ University in Oslo
- ▶ University in Stavanger
- ▶ University in Tromsø
- ▶ University in Ålesund

OMAN

Participating Employers

- ▶ Petroleum Development Oman
- ▶ Halliburton Worldwide
- ▶ Occidental of Oman
- ▶ Oman Refinery Company
- ▶ Oman Cement Company
- ▶ Oman Electricity Transmission Company
- ▶ Schlumberger Middle East
- ▶ Oman Telecommunications Company
- ▶ Parsons International & Company
- ▶ National Engineering Office

Participating Institution

- ▶ Sultan Qaboos University

PAKISTAN

Participating Employers

- ▼ National University of Sciences and Technology (NUST)
 - ▶ Institute of Environmental Sciences and Engineering (IESE)
 - ▶ Smart Machines And Robotics Technology (SMART)
 - ▶ School of Electrical Engineering and Computer Science.

Participating Institution

- ▶ National University of Sciences and Technology (NUST)

PANAMA

Participating Employers

- ▶ BAUER Fundaciones Panama S.A
- ▶ Ing. Om Ramirez y Asociados
- ▶ Empresas Bern
- ▶ SIMESA
- ▶ Solutions-panama.com
- ▶ Lucio Galvez Ingenieros, S.A.
- ▶ Academia Bioclimatica de Arquitectura
- ▶ Comercial de Motores, S.A
- ▶ Casa Ruiz, S. A.
- ▶ Servicios Eléctricos de Chiriquí, S.A
- ▶ LOGIC STUDIO
- ▶ Los Quetzales
- ▶ Astorvision, S.A.
- ▶ Technological University of Panama

Participating Institutions

- ▶ Universidad Tecnológica de Panamá,
- ▶ USMA,
- ▶ U LATINA

PERU

Participating Employers

- ▶ Agropecuaria Don Lucho – Agropel
- ▶ Ecoacuicola S.A.C
- ▶ Fabtech
- ▶ GyM S.A. - Grupo Graña y Montero S.A.
- ▶ Radio Observatorio de Jicamarca - Instituto de Geofísica del Perú
- ▶ Universidad de Piura

Participating Institution

- ▶ Universidad de Piura

PHILIPPINES

Participating Employer

- ▶ Xavier University – Ateneo de Cagayan, Cagayan de Oro City, Philippines

Participating Institutions

- ▶ ABE – International College of Business and Accountancy, (Tacloban City)
- ▶ Brokenshire College Socskargen Inc (General Santos City)
- ▶ Central Mindanao University (Valencia City, Bukidnon)
- ▶ Central Philippine University (Iloilo City)
- ▶ La Consolacion College Bacolod (Bacolod City)
- ▶ Mindanao State University - Main Campus (Marawi City)
- ▶ STI-College Ormoc (Ormoc City)
- ▶ University of San Carlos (Cebu City)
- ▶ University of Southern Mindanao (Kabacan, Cotabato)

POLAND

Participating Employers

support services to IAESTE

Daniel Schwarz
IDT Co-ordinator

Internet Development Team (IDT)

The IDT, Internet Development Team, was founded in Copenhagen in 1998 by volunteers from five different countries, with the goal to deliver IT services to IAESTE.

Today thirteen volunteers from ten countries are involved in IDT. The services include anything which the organisation requests, such as web and e-mail services. The web services include a private website, the IAESTE IntraWeb; and provides technical assistance for the Alumni Association. The IDT maintains the public website, www.iaeste.org, which provides information on IAESTE and links to all Member countries' home pages and contact details.

Bruce Mehlmann-Wicks
Alumni Relations Manager

IAESTE Alumni Network (IAN)

The new online IAESTE Alumni Network was successfully launched in January 2011 and is supported by the Alumni Relations Manager. Over 3000 people have already registered and the number continues to grow each day.

Members are contacting old friends from years gone by and sharing their experience through writing articles or uploading photos and video. They are also attending alumni events and making new contacts for further professional development. In addition, the network is proving to be a very useful tool for managing summer social programmes for current trainees. Alumni are essential to the future of IAESTE. They can support us in numerous ways, for example, acting as ambassadors or being a source for placements or financial support. Furthermore, access to a network of highly motivated and experienced scientists, engineers or architects, is a very attractive proposition for potential sponsoring companies. The IAESTE Alumni Network allows us to engage with our alumni like never before and to form mutually beneficial relationships with them.

The IAESTE Ombudsman

The post of Ombudsman was created by a decision of the 2001 General Conference of IAESTE held in Durban. The Ombudsman is an independent person, to whom students can report complaints about unfair treatment, with the aim of arriving at a fair settlement. The Ombudsman reports to the General Conference each year about all incidents reported to him from students. He also proposes measures to prevent similar incidents in future.

Mrs Edith Bretin is the IAESTE Ombudsman. For further Information on the Ombudsman please go to www.iaeste.org or contact her at either ombudsman@iaeste.org or write to
IAESTE Ombudsman
20, Rue Alphonse Daudet
13090 Aix en Provence
France

Mario Felber
SID Co-ordinator

Strategic IAESTE Development (SID)

SID serves IAESTE by bringing together IAESTE Members and Co-operating Institutions to discuss issues of best practice, administration, organisational advancement and the development of the Organisation. Unlike the Annual

Conference, which focuses on the exchange of traineeships, SID provides a structured forum for delegates to discuss ideas and actions to improve IAESTE as an International Organisation. Work Groups work on specific tasks requested by the General Conference, the IAESTE Board and the Membership at large provide the topics to be discussed at SID. In addition, a number of ongoing tasks such as Mentoring, Annual Conference Introductory sessions and updating of IAESTE Forms and materials are tackled by SID. The results from the Work Groups are refined over the year into recommendations that go back to the Board and then to the General Conference for official voting and implementation.

IAESTE Worldwide: Members and Co-operating Institutions
